

Susan Vanecek

Susan discovered WIN in 2021 through a member who reached out to her on social media believing there was a shared commitment to the environment, philanthropy, the impact of collective giving, and participatory membership.

Her involvement with WIN includes Co-Chair of the Health and Wellness Circle, Membership Coordinator, behind-the-scenes work with our software, and joining in lively discussions at Book Club.

Susan's thinking and approach to serving organizations is rooted in her broad-based career in higher education along with time spent in the private sector. She has experience on non-profit boards and committees including Treasurer of an early education and childcare center with a sliding scale tuition structure dedicated to serving all populations. A certified adult literacy tutor, she also volunteers in the library of her local elementary school.

Grounded by Rumi's "Be a lifeboat, or a ladder, or a lamp", she strives to create a life serving others by meeting them where they are.
